Term applications for \$1.5 million and below will require digital submission

We know our service hasn't met our expectations or yours, so we've been looking at ways to help improve it. Digital applications significantly streamline the new business process and can be reviewed up to six times faster than paper applications.

To that end, increasing digital application usage will have a meaningful impact on efficiency and capacity. Therefore, we'll be requiring eApp or Drop TicketSM application submissions for **Advantage Elite Select** term policies \$1.5 million and below starting May 2, 2022.¹ This will ensure that your applications are submitted in good order without the back and forth, so your clients get insured fast and you get the service you deserve.

Applicants using our digital applications expressed a 41% higher satisfaction rate compared to the traditional paper application submission.² And when paired with our digital Part 2 and WriteFit Underwriting™ your clients can expect a fast underwriting offer.

Please keep in mind that the primary reason to purchase a life insurance product is the death benefit.

Product features and availability may vary by state.

Life insurance products contain fees, such as mortality and expense charges (which may increase over time), and may contain restrictions, such as surrender periods.

The Accelerated Death Benefit for Chronic Illness Agreement is a life insurance policy agreement that provides an option to accelerate the death benefit in the event that the insured becomes chronically ill. The accumulation value, surrender value, loan value, and death benefit will be reduced by a chronic illness benefit payment under this agreement.

Additional agreements may be available. Agreements may be subject to additional costs and restrictions. Agreements may not be available in all states or may exist under a different name in various states and may not be available in combination with other agreements.
