Increased agility in Agile Underwriting+: IUL opt-out available in iGO full eApp

Effective April 30, 2022:

Flexibility to determine best process for your client with opt-out for IUL and Term when submitting case via iGO eApplication

This latest enhancement gives you more flexibility and control for your cases.

AU+ opt-out was previously available for Select-a-Term cases submitted via iGO eApp. Effective April 30, it will also be available for Value+ Protector II and Max Accumulator+ II cases submitted via iGO eApp.

- By opting out of AU+, the case will require full underwriting and AIG will not require a tele-interview. Instead, the agent can schedule the paramedical exam or request that AIG schedule the paramedical exam.
- This option may be useful for clients who will likely require exams. Use our <u>AU+ Availability Review Checklist</u> to see if a case is likely to proceed through AU+.
- For full guidelines, see our Agile Underwriting+ Guidelines.

See page 2 for instructions on how to opt out of Agile Underwriting+ in iGO full eApp and transition rules.

 - The tele-interview vendor will call the client. If the client is unable to answer the phone, the interviewer will leave a voice-mail message with instructions and a telephone number for the client to call.

 - For cases submitted by iGO full eApp or paper application, the CRL Plus tele-interview phone line is 877-243-2448.
- Important callback tip: If the tele-interviewer calls and leaves a message, it's important that your client listen to the full message and call back the number provided in the message. Your client should not assume the number displayed in the caller ID is the call-back number.
