MVA rates shown above. Rates and features are current as of the date shown and are subject to change at any time. The guaranteed minimum interest rate for all purchase payments will never be below 1.00%. The increasing interest rate will never be below 0.10%.

A base interest rate is set for each purchase payment you make. In years two through five of each purchase payment's five-year term, 0.10% will be added to the credited rate of the previous contract year.

Early withdrawal charges and market value adjustments apply if you surrender your annuity or take withdrawals from it during the initial five-year term. Early withdrawal charges and market value adjustments do not apply to amounts covered by the 10% free withdrawal allowance.

The contract provides lifetime income payout options. If you select one of these options, we will make periodic payments until the death of the person on whose life payments are based. After the annuity payout initiation date, you cannot surrender your annuity or withdraw any other money from your annuity.

In general you will pay ordinary income taxes on the earned interest when you receive annuity benefit payments, you surrender your annuity or you take a withdrawal. You may pay a 10% federal penalty tax on the taxable amount of any payment that you receive before age 59½.
