INTEREST RATES	The base interest rate at the beginning of the term is guaranteed to be the base interest rate at the end of that term. Current interest rates and guaranteed interest rates may vary by state; please refer to the current interest rate chart.

TERMINAL ILLNESS WAIVER RIDER	consecutive days, early withdrawal charges may be waived on withdrawals up to a full surrender.  Not available in Massachusetts. ACCOUNT VALUE	The account value is equal to 100% of the purchase payment received, plus interest credited daily, less any amounts withdrawn, including any applicable MVA or early withdrawal charges, less any applicable premium taxes and other taxes required by your state.							
SURRENDER VALUE	The surrender value is equal to the account value, less any early withdrawal charge and MVA that would apply to a surrender.							
MARKET VALUE ADJUSTMENT (MVA)	During the initial five-year term, a market value adjustment or MVA will apply to withdrawals and surrenders. The MVA factor is calculated by comparing the interest rate environment when the contract is purchased to the environment when the withdrawal is taken or the contract is surrendered. This can result in an increase to the surrender value during a period of decreasing rates, or a decrease from the surrender value during a period of increasing or steady rates. The MVA will not apply during one-year terms.							
EARLY WITHDRAWAL CHARGE	During the initial five-year term, an early withdrawal charge is applied to surrenders and withdrawals. Early withdrawal charges will not apply during one-year terms.
